School of Nursing

BSN Graduates

CLASS OF 2020

Message from the Director

Congratulations!

Today we celebrate you, the 2020 graduating class of the School of Nursing. You represent the last of the "Centenary cohorts" - those who studied during 2019, the year the School of Nursing celebrated one hundred years since joining UBC as the first baccalaureate degree program in nursing, not just in all of Canada, but across the British Commonwealth. You are also our graduating cohort during the International Year of the Nurse and Midwife, and as our alumni, you take your place in the nursing profession at a time when we are needed more than ever.

In the next few years, you will see a brand new learning/teaching/health care facility rising at the corner of University Boulevard and Wesbrook Mall to house a School that will continue to serve and support your developing careers. However, the School supports more than careers. Over the past two years, you have developed close friendships and support groups. The School's Alumni Engagement team is here to help you stay in touch with one another, to support your gatherings and alumni events, to

provide opportunities to connect with previous and future graduates of our program, and most of all, to celebrate your accomplishments. Our graduates have gone on to amazing achievements around the world, and you each have the potential to do the same, because you received your education from one of the top institutions in nursing education and research, enhanced by the expert practice, education, and enquiry of our current nursing leaders.

As our alumni, you will mentor our next cohorts of students. As nurses, you will be a lifeline and touchstone for countless others. As visionaries, uniquely placed to witness what needs to be done and equipped with the skills to achieve it, you will help shape nursing for the next 100 years, leading at the cusp of change and innovation in health care.

I wish you all the greatest success in our profession, the most trusted in health care, and I look forward to seeing the inspiring things you'll do to contribute to health for all.

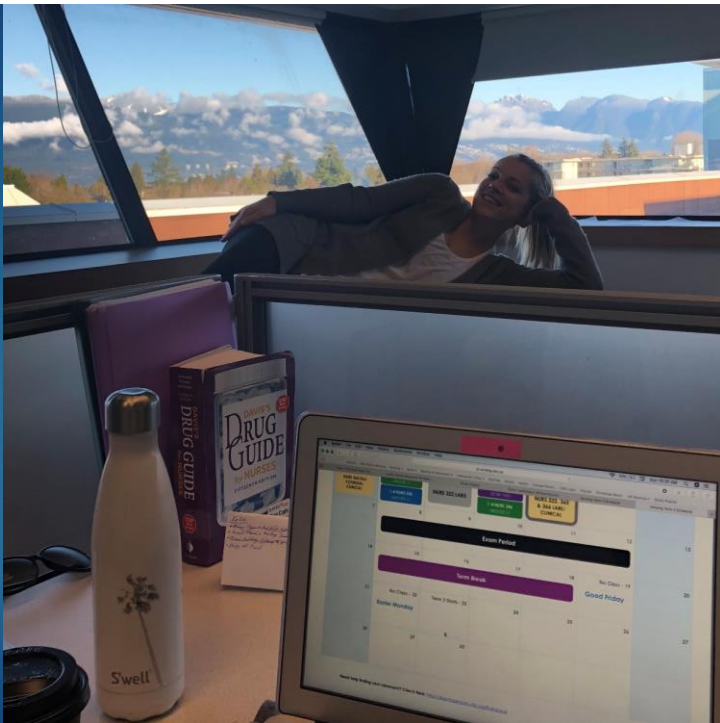

Elizabeth M. Saewyc, PhD, RN, FSAHM, FCAHS, FAAN Professor and Director, School of Nursing

You (and your fellow nursing graduates) should be extremely proud of your accomplishments, particularly in this 'age of COVID'. The class of 2020, with the challenges that you have had to overcome/example you have set, will be among the greatest UBC has ever graduated. Congrats!
